Dallas, TX	28%

*List of 73 cities includes the largest city from each state and the District of Columbia and 29 of the next most populous U.S. cities, where population estimates are available. Because data are not available for some city population estimates that are too small, our list does not include cities in each state. We do not show data for cities in the following states: Delaware, North Dakota, Vermont, West Virginia, and Wyoming.
