

## Research Scientist

*Child Trends is a nonprofit, nonpartisan research center that studies children at all stages of development. Our mission is to improve outcomes for children by providing research, data, and analysis to the people and institutions whose decisions and actions affect children.*

### General Description

Responsible for planning and executing major social science research projects in consultation with colleagues and/or other organizations. Designs research approach and selects appropriate quantitative or other tools of analysis. Performs analysis, writes and presents reports, and draws policy inferences. Must develop and write proposals. May function as principal investigator/project manager for research projects.

### Typical Duties and Responsibilities

- Develops or participates in developing research topics, proposals, budgets, and research design.
- Selects appropriate statistical techniques to analyze collected data.
- Supervises and/or participates in data collection, tabulation, and analysis by research analysts and research assistants; participates in interpreting data from policy and program perspectives.
- Makes site visits, conducts interviews with public officials, and supervises field research.
- May serve as project manager/principal investigator for one or more projects.
- May serve as supervisor for more junior research staff.
- Writes final reports and presents results to clients. Prepares papers for presentations, publications, and testimony.
- Disseminates/responds to public information requests from reporters, Congress, and researchers.
- Attends all-staff and project managers meetings.
- Reviews resumes and interviews candidates for employment.

### Qualifications

A combination of the quantitative, analytical, and writing skills, relevant substantive knowledge, and social policy research experience needed to perform the duties described above, or the academic knowledge of and research experience in a discipline that is generally associated with the attainment of the Ph.D. or equivalent level of knowledge or experience. A Master's or other relevant degrees may be considered with substantial relevant experience.
