

# Challenges to accessing training.

Results from a 2018 survey of the child care and early education workforce

A total of 2,186 center-based and family child care providers were asked about the challenges to training that they faced.

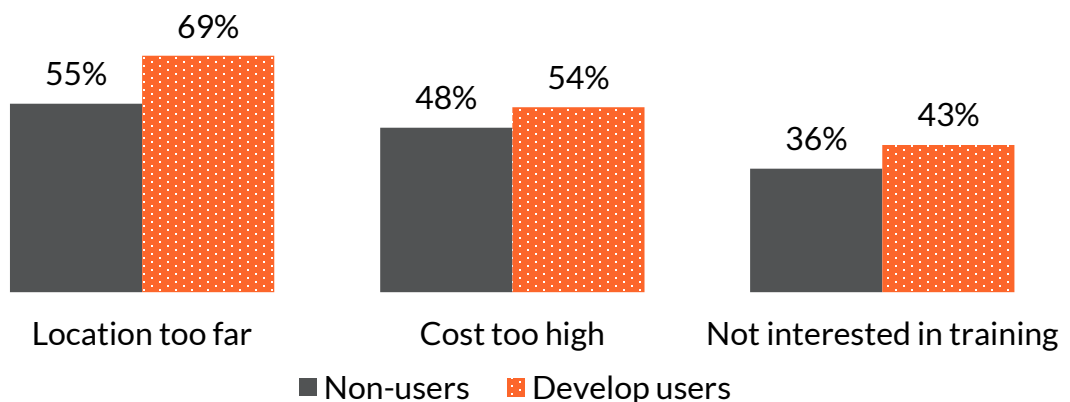

## Did family child care providers report different challenges than center-based providers?

Family child care providers and center-based providers identified **location** and **cost** as the top two challenges. **Family child care providers** more commonly identified a **lack of interest** in the training topic as an additional barrier to professional development.

## Did Develop users report different challenges than non-users of Develop?

**Develop** is Minnesota's online Quality Improvement and Registry Tool. **Develop** users cited **location**, **cost**, and **lack of interest** as barriers more often than non-users did.

Note: Most non-users of Develop were center-based providers.
