

Training is available across the state.

Results from a 2018 analysis of Minnesota's professional development landscape

Data on the locations of the child care and early education workforce and of professional development trainers were drawn from **Develop**, Minnesota's online Quality Improvement and Registry Tool and from surveys of trainers and workforce members.

Trainers are **available in nearly all areas** of the state where the child care and early education workforce provide care.

Note: Larger circles indicate larger populations of the workforce.
