

Maine

The Centers for Disease Control and Prevention, in partnership with ASCD, developed the Whole School, Whole Community, Whole Child (WSCC) framework to highlight the need for schools to address all aspects of children’s physical, mental, and social well-being to help them learn and thrive. As part of the Together for Healthy and Successful Schools Initiative funded by the Robert Wood Johnson Foundation, Child Trends, the Institute for Health Research and Policy at the University of Illinois at Chicago, and EMT Associates, Inc. identified key topic areas in each of the WSCC’s 10 components, and assessed whether and how states are addressing these issues in state statutes and regulations enacted as of September 4, 2017. This profile highlights both the extent to which Maine’s statutes and regulations cover the WSCC components and the way in which the state approaches each of the selected topic areas.

The full set of topic areas, as well as applicable statutory and regulatory language, is available through the National Association of State Boards of Education’s (NASBE) [State Policy Database on School Health](#). The national summary report and profiles for each state can be found on the [Child Trends website](#).

Coverage of the WSCC in Maine Statutes and Regulations

	ME	Nation
Health Education	67%	68%
Physical Education and Physical Activity	25%	44%
Nutrition Environment and Services	29%	25%
Health Services	81%	76%
