

## Next Step Prompts for Maximizing Outreach and Access

Now think about potential next steps to increase outreach related to sexual health services and set some intentions. The following statements can serve as prompts to help you identify next steps.

Reflections on Goal Setting	
1. Identify at least one new sexual health outreach strategy to implement within your school-based health setting or organization over the next three months.	<i>Think about new opportunities for sexual health outreach and engagement in your SBHC. Ensure that your conversation identifies ways to reach all student populations.</i>
2. Identify at least one existing sexual health outreach strategy within your school-based health setting or organization to improve over the next three months.	<i>Think about what is already happening within your SBHC with sexual health services outreach and engagement. Consider what could be done more efficiently or more effectively and what efforts are not having the desired outcomes. Think about smaller changes that you can test and include in SBHC protocols. Ensure that your conversation identifies ways to reach all student populations. Then consider an additional small change.</i>
3. Identify at least one new sexual health outreach strategy to implement within the school(s) at which you are located over the next three months.	<i>Think about new opportunities for schoolwide outreach and engagement related to sexual health services. Ensure that your conversation identifies ways to reach all student populations.</i>
4. Identify at least one existing sexual health outreach strategy within the school(s) at which you are located to improve over the next three months.	<i>Think about what your SBHC is already doing in the school around outreach and engagement related to sexual health that could be done more efficiently or could be more effective. Think about smaller changes that you can test and include in SBHC protocols. Ensure that your conversation identifies ways to reach all student populations. Then consider an additional small change.</i>
